Ord River: Dampier Plutonic Dome Joint Venture

SATISFACTION OF EARNING OBLIGATION AND ASSIGNMENT OF INITIAL INTEREST

Pursuant to the Plutonic Dome Farm-In Agreement between Ord River Resources Limited (ACN 108 737 711) (ASX:ORD) (“Ord River”) and Dampier (Plutonic) Pty Ltd (ACN 131 670 963), a wholly owned subsidiary of Dampier Gold Limited (“Dampier”) (ASX:DAU), Dampier confirms that Ord River has satisfied the Earning Obligation set out in Clause 5.1 of the Plutonic Dome Farm-In Agreement and is therefore entitled to a Joint Venture Interest of 30% in the Plutonic Dome Gold Project (“Project”).

Furthermore, Ord River has advised Dampier that it intends to sole risk the next \$1 million of Joint Venture expenditure to increase its equity in the Project to 45%. Such expenditure needs to be completed on or before 10 February 2015.

As a result of the recent successful feasibility study over the K2 underground resource, Entech Pty Ltd has been engaged by the joint venture to commence a tendering process for underground mining contractors to operate the proposed K2 development.
